## **Introduction to Plant Biotechnology (3/e) H S Chawla**

This book has been written to meet the needs of students for biotechnology courses at various levels of undergraduate and graduate studies. This book covers all the important aspects of plant tissue culture viz. nutrition media, micropropagation, organ culture, cell suspension culture, haploid culture, protoplast isolation and fusion, secondary metabolite production, somaclonal variation and cryopreservation. For good understanding of recombinant DNA technology, chapters on genetic material, organization of DNA in the genome and basic techniques involved in recombinant DNA technology have been added. Different aspects on rDNA technology covered gene cloning, isolation of plant genes, transposons and gene tagging, in vitro mutagenesis, PCR, molecular markers and marker assisted selection, gene transfer methods, chloroplast and mitochondrion DNA transformation, genomics and bioinformatics. Genomics covers functional and structural genomics, proteomics, metabolomics, sequencing status of different organisms and DNA chip technology. Application of biotechnology has been discussed as transgenics in crop improvement and impact of recombinant DNA technology mainly in relation to biotech crops.

### From reader reviews:

#### **Scott Barbour:**

A lot of people always spent their own free time to vacation or go to the outside with them household or their friend. Were you aware? Many a lot of people spent they will free time just watching TV, or playing video games all day long. If you want to try to find a new activity this is look different you can read the book. It is really fun for yourself. If you enjoy the book that you simply read you can spent the whole day to reading a reserve. The book Introduction to Plant Biotechnology (3/e) it is rather good to read. There are a lot of individuals who recommended this book. These folks were enjoying reading this book. Should you did not have enough space to create this book you can buy the actual e-book. You can m0ore very easily to read this book from a smart phone. The price is not very costly but this book features high quality.

#### **Robert King:**

Are you kind of busy person, only have 10 or maybe 15 minute in your day to upgrading your mind talent or thinking skill also analytical thinking? Then you are having problem with the book compared to can satisfy your short time to read it because this all time you only find reserve that need more time to be go through. Introduction to Plant Biotechnology (3/e) can be your answer as it can be read by you who have those short extra time problems.

#### **Michael Castillo:**

In this age globalization it is important to someone to obtain information. The information will make professionals understand the condition of the world. The condition of the world makes the information simpler to share. You can find a lot of referrals to get information example: internet, paper, book, and soon. You will observe that now, a lot of publisher that will print many kinds of book. The actual book that recommended for you is Introduction to Plant Biotechnology (3/e) this guide consist a lot of the information of the condition of this world now. This specific book was represented just how can the world has grown up. The vocabulary styles that writer use to explain it is easy to understand. The writer made some exploration when he makes this book. That is why this book acceptable all of you.

#### **Jeff Brown:**

A lot of e-book has printed but it is different. You can get it by net on social media. You can choose the most beneficial book for you, science, amusing, novel, or whatever by searching from it. It is identified as of book Introduction to Plant Biotechnology (3/e). You'll be able to your knowledge by it. Without leaving the printed book, it may add your knowledge and make anyone happier to read. It is most important that, you must aware about publication. It can bring you from one location to other place.
