Dr. Lesley E Blankenship-Williams

What you really need to know before Anatomy, Physiology & Microbiology: A science primer for pre-nursing and other allied health students Dr. Lesley E Blankenship-Williams

Do you need to take Human Anatomy, Human Physiology or Microbiology courses for a nursing program or other allied health program? If so, this book is for you! *Reviews the biology, chemistry and study methods you really, truly, actually need when starting a Human Anatomy, Human Physiology or Microbiology course. *Workbook format puts you in the drivers seat of your learning with problems throughout each chapter. A complete answer key with explanations for the more challenging questions allows you to gauge your comprehension. *Over 20 professors and 300 students were consulted in selecting the topics for this book. *Unique, multimedia learning experience integrates instructional videos accessible on a smartphone, tablet, or computer using QR codes. Videos are closed captioned. *Emphasis on conceptual and applied knowledge. * Engaging, straightfoward and "punny" style of writing so you don't get (too) bored. *Written by an award-winning professor who actually teaches all three courses for students just like you.
