1934-42 GE Refrigerator Monitor top repair manual Vol.2 (Vintage General Electric refrigerator repair manual) General Electric Technical Services

1934-42 GE Refrigerator Monitor top repair manual Vol.2 This is the second volume of the General Electric Monitor top repair manual as issued by the GE refrigerator division. This is an excellent photocopy of a manual for the 1930s General Electric Monitor Top Refrigerator, and those models immediately preceding it up to 1942. I found these at a swap meet. I was told they were from an "out of business" appliance restoration and parts house. I recently compared it to an original and it is a complete replica of the original text! Comb bound at the spine so it opens like a book. (See our other auctions for the Volume I covering all 1927-33 GE refrigerator repairs, and also please purchase the GE parts manual that is also offered for sale in our other auctions.) This manual covers hundreds of cabinet models Monitor tops flat tops ball tops double doors, single doors, (with pictures of most !) a sample of only a few of the models covered is as following: T-5, T-7, X-4, X-3, M-6, M-7, S-146, P-110, P-83, P-134, M8-37, TM-9, T-14, B8-42, V-7, V-5, V-4, etc... e-mail me with your model to see if it is in the hundreds listed ! YES, Includes the popular CK-2-C16 model too !!! Every refrigerator and Scotch Yoke machine that GE produced in this era ! Contains 206 pages of installation instructions, actual photographs of the machines with corresponding part numbers, wiring diagrams, specifications, trouble shooting & the correct adjustments/repairs, etc. A VERY valuable manual for those of you who own and/or are restoring these units. You can't go wrong using a copy of the FACTORY manual for your restoration ! NO RETURNS.
