Tucker Charley, and all of the citizens of Kaloon have lived lives of relative normalcy up until that fateful day when Scooter, Tucker's bog, saw some movement over on the embankment of Shelbyville Canyon. Then, when it was finally established that the movement was made by none other than two humans returning to the world of the Dog, it set into motion events that would lead to some very major changes in the society of dogs which now ruled the earth. Norbert Welch, and Leona Masters, two travelers aboard a wrecked space taxi, find themselves in an environment totally foreign to the lives they had led before their entrance into the world of Dog. Dogs now occupied the position that man had held for millions of years and as such set forth the rules of civilization rather than being the one who lived by the rule of humans. Join the citizens of Kaloon and see if you can survive in this, 'Return to Kaloon'.
