Advances in Signal Processing and Intelligent Recognition Systems (Advances in Intelligent Systems and Computing)

Advances in Signal Processing and Intelligent Recognition Systems (Advances in Intelligent Systems and Computing)

This edited volume contains a selection of refereed and revised papers originally presented at the International Symposium on Signal Processing and Intelligent Recognition Systems (SIRS-2014), March 13-15, 2014, Trivandrum, India. The program committee received 134 submissions from 11 countries. Each paper was peer reviewed by at least three or more independent referees of the program committee and the 52 papers were finally selected. The papers offer stimulating insights into Pattern Recognition, Machine Learning and Knowledge-Based Systems; Signal and Speech Processing; Image and Video Processing; Mobile Computing and Applications and Computer Vision. The book is directed to the researchers and scientists engaged in various field of signal processing and related areas.

From reader reviews:

Federico Crouch:

In this 21st century, people become competitive in every single way. By being competitive now, people have to do something to make all of them survive, being in the middle of the crowded place and notice by surrounding. One thing that oftentimes many people have underestimated the idea for a while is reading. Sure, by reading a book your ability to survive increases then having a chance to remain than other is high. For you personally who want to start reading a book, we give you this kind of *Advances in Signal Processing and Intelligent Recognition Systems (Advances in Intelligent Systems and Computing)* book as a beginner and daily reading book. Why, because this book is usually more than just a book.

Nancy Ochoa:

As people who live in typically the modern era should be change about what is going on or information even knowledge to make these people keep up with the era which is always changing and moving forward. Some of you maybe may update themselves by studying books. It is a good choice to suit your needs but the problems coming to a person is you don't know what type you should start with. This *Advances in Signal Processing and Intelligent Recognition Systems (Advances in Intelligent Systems and Computing)* is our recommendation to cause you to keep up with the world. Why, because a book serves what you want and wish in this era.

Johnny Ballance:

Playing with family in a park, coming to see the coastal world or hanging out with pals is a thing that usually you will have done when you have spare time, and then why you don't try something that is really opposite from that. One particular activity that makes you not feel tired but still relaxing, thrilling like on a roller coaster you already been ride on and with additional info. Even you love *Advances in Signal Processing and Intelligent Recognition Systems (Advances in Intelligent Systems and Computing)*, you can enjoy both. It is a very good combination right, you still want to miss it? What kind of hangout type is it? Oh occur its mind hangout people. What? Still don't obtain it, oh come on its identified as reading friends.

James Cooper:

Reading a book to be a new life style in this calendar year; every people loves to go through a book. When you read a book you can get a great deal of benefit. When you read books, you can improve your knowledge, mainly because a book has a lot of information on it. The information that you will get depends on what forms of book that you have read. If you would like get information about your examine, you can read education books, but if you want to entertain yourself read a fiction books, these kinds of us novel, comics, and also soon. The *Advances in Signal Processing and Intelligent Recognition Systems (Advances in Intelligent Systems and Computing)* will give you a new experience in examining a book.
