After-Death Communication Emma Heathcote-James

Containing testimonies from people from all walks of life, including such celebrities as Paul McCartney and Robbie Williams, this is both a glimpse into a wider spiritual reality and a practical guide to communicating with the deceased

Describing the direct contact between the living and the deceased, this collection was undertaken without the intervention of an intermediary such as a psychic or medium. A product of years of painstaking work researching the phenomenon of after-death communication (ADC), this extraordinary work collects hundreds of deeply poignant, firsthand accounts from those who have been directly contacted by deceased loved ones. The reader is left to decide whether these are mere hallucinations or manifestations of something more significant. Response to Heathcote-James' new research has been genuinely startling, revealing that an amazing proportion of the population believe that they have had after-death experiences. The weight of evidence may well change the way readers consider the supernatural.
