Human Rights in the Constitutional Law of the United States

Michael J. Perry

Human Rights in the Constitutional Law of the United States Michael J. Perry

In the period since the end of the Second World War, there has emerged what never before existed: a truly global morality. Some of that morality - the morality of human rights - has become entrenched in the constitutional law of the United States. This book explicates the morality of human rights and elaborates three internationally recognized human rights that are embedded in U.S. constitutional law: the right not to be subjected to cruel, inhuman, or degrading punishment; the right to moral equality; and the right to religious and moral freedom. The implications of one or more of these rights for three great constitutional controversies - capital punishment, same-sex marriage, and abortion - are discussed in-depth. Along the way, Michael J. Perry addresses the question of the proper role of the Supreme Court of the United States in adjudicating these controversies.
