Margaret Urban Walker

Moral Understandings: A Feminist Study in Ethics (Studies in Feminist Philosophy) Margaret Urban Walker

This is a revised edition of Walker's well-known book in feminist ethics first published in 1997. Walker's book proposes a view of morality and an approach to ethical theory which uses the critical insights of feminism and race theory to rethink the epistemological and moral position of the ethical theorist, and how moral theory is inescapably shaped by culture and history. The main gist of her book is that morality is embodied in "practices of responsibility" that express our identities, values, and connections to others in socially patterned ways. Thus ethical theory needs to be empirically informed and politically critical to avoid reiterating forms of socially entrenched bias. Responsible ethical theory should reveal and question the moral significance of social differences. The book engages with, and challenges, the work of contemporary analytic philosophers in ethics.
