The Book of PF: A No-Nonsense Guide to the OpenBSD Firewall

Peter N.M. Hansteen

The Book of PF: A No-Nonsense Guide to the OpenBSD Firewall Peter N.M. Hansteen

OpenBSD's stateful packet filter, PF, is the heart of the OpenBSD firewall and a necessity for any admin working in a BSD environment. With a little effort and this book, you'll gain the insight needed to unlock PF's full potential.

This second edition of *The Book of PF* has been completely updated and revised. Based on Peter N.M. Hansteen's popular PF website and conference tutorials, this no-nonsense guide covers NAT and redirection, wireless networking, spam fighting, failover provisioning, logging, and more. Throughout the book, Hansteen emphasizes the importance of staying in control with a written network specification, keeping rule sets readable using macros, and performing rigid testing when loading new rules.

The Book of PF tackles a broad range of topics that will stimulate your mind and pad your resume, including how to:

- Create rule sets for all kinds of network traffic, whether it's crossing a simple LAN, hiding behind NAT, traversing DMZs, or spanning bridges or wider networks
- Create wireless networks with access points, and lock them down with authpf and special access restrictions
- Maximize flexibility and service availability via CARP, relayd, and redirection
- Create adaptive firewalls to proactively defend against would-be attackers and spammers
- Implement traffic shaping and queues with ALTQ (priq, cbq, or hfsc) to keep your network responsive
- Master your logs with monitoring and visualization tools (including NetFlow)

The Book of PF is for BSD enthusiasts and network administrators at any skill level. With more and more services placing high demands on bandwidth and an increasingly hostile Internet environment, you can't afford to be without PF expertise.

From reader reviews:

Kim Bogdan:

What do you with regards to book? It is not important along? Or just adding material when you really need something to explain what you problem? How about your free time? Or are you busy person? If you don't have spare time to complete others business, it is give you a sense of feeling bored faster. And you have spare time? What did you do? Every individual has many questions above. They should answer that question simply because just their can do that. It said that about reserve. Book is familiar on every person. Yes, it is correct. Because start from on jardín de infancia until university need that The Book of PF: A No-Nonsense Guide to the OpenBSD Firewall to read.

Earl Diehl:

In this 21st one hundred year, people become competitive in each way. By being competitive now, people have do something to make all of them survives, being in the middle of typically the crowded place and notice through surrounding. One thing that often many people have underestimated that for a while is reading. Yep, by reading a publication your ability to survive raise then having chance to stand up than other is high. For you who want to start reading the book, we give you this kind of The Book of PF: A No-Nonsense Guide to the OpenBSD Firewall book as basic and daily reading guide. Why, because this book is usually more than just a book.

Charles Baker:

Typically the book The Book of PF: A No-Nonsense Guide to the OpenBSD Firewall will bring someone to the new experience of reading any book. The author style to spell out the idea is very unique. If you try to find new book to see, this book very acceptable to you. The book The Book of PF: A No-Nonsense Guide to the OpenBSD Firewall is much recommended to you to see. You can also get the e-book from your official web site, so you can quickly to read the book.

Megan Kelly:

Why? Because this The Book of PF: A No-Nonsense Guide to the OpenBSD Firewall is an unordinary book that the inside of the publication waiting for you to snap that but latter it will surprise you with the secret the item inside. Reading this book alongside it was fantastic author who have write the book in such awesome way makes the content on the inside easier to understand, entertaining way but still convey the meaning completely. So , it is good for you for not hesitating having this any more or you going to regret it. This phenomenal book will give you a lot of rewards than the other book get such as help improving your proficiency and your critical thinking technique. So , still want to delay having that book? If I ended up you I will go to the guide store hurriedly.
