The Human Equation and the Prime Directive Hassan Rasheed

Do you long for a deep, fundamental change in your understanding of life? Do you desire a greater perception of what makes life pulsate? Do you wonder why you live your life as you do and as nature and evolution had intended? "The Human Equation and the Prime Directive" is a book that belongs to every seeker. It answers the universal question, "Where did we come from and where are we going?" Hassan Rasheed reveals a way to read the patterns in the sand of life's depth of meaning. This book is an analysis of life, its direction and future on Earth in general and the role of humans in particular. It starts with the origin of life and its Prime Directive followed by the relationship between it and energy. It covers how belief systems support life's prime directive through the promotion of unity and cooperation. It ends with revelations about how all this will fair for the Earth and its inhabitants.

From reader reviews:

Harold McDonough:

This The Human Equation and the Prime Directive usually are reliable for you who want to be a successful person, why. The reason why of this The Human Equation and the Prime Directive can be one of the great books you must have is actually giving you more than just simple reading food but feed you with information that possibly will shock your before knowledge. This book will be handy, you can bring it all over the place and whenever your conditions in e-book and printed people. Beside that this The Human Equation and the Prime Directive giving you an enormous of experience for example rich vocabulary, giving you tryout of critical thinking that could it useful in your day activity. So , let's have it and luxuriate in reading.

Ruth Westlund:

Your reading sixth sense will not betray anyone, why because this The Human Equation and the Prime Directive guide written by well-known writer who knows well how to make book which can be understand by anyone who read the book. Written inside good manner for you, still dripping wet every ideas and publishing skill only for eliminate your personal hunger then you still uncertainty The Human Equation and the Prime Directive as good book not just by the cover but also by the content. This is one guide that can break don't judge book by its protect, so do you still needing a different sixth sense to pick this specific! Oh come on your reading through sixth sense already said so why you have to listening to one more sixth sense.

James Hibner:

This The Human Equation and the Prime Directive is great guide for you because the content which is full of information for you who also always deal with world and have to make decision every minute. This specific book reveal it data accurately using great coordinate word or we can state no rambling sentences within it. So if you are read this hurriedly you can have whole data in it. Doesn't mean it only gives you straight forward sentences but tough core information with attractive delivering sentences. Having The Human Equation and the Prime Directive in your hand like having the world in your arm, information in it is not ridiculous 1. We can say that no e-book that offer you world inside ten or fifteen tiny right but this reserve already do that. So , this really is good reading book. Hello Mr. and Mrs. active do you still doubt that will?

Rod Reese:

As a college student exactly feel bored to help reading. If their teacher inquired them to go to the library as well as to make summary for some reserve, they are complained. Just minor students that has reading's spirit or real their leisure activity. They just do what the professor want, like asked to go to the library. They go to right now there but nothing reading significantly. Any students feel that looking at is not important, boring as well as can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. So , this The Human Equation and the Prime Directive can make you

really feel more interested to read.
