Naval Air Station Atlantic City (Images of Aviation) Richard V. Porcelli

Few would guess Atlantic City has a rich aviation history, being instrumental in many technical advances and playing a key role in the defense of the nation. The wartime role of Naval Air Station Atlantic City, commissioned in 1943, was training naval fighter pilots as well as developing technology and procedures for ground controlled interception of enemy aircraft. After the war, Atlantic City was the site of testing new Navy aircraft as well as the development of all-weather, night-fighting, and attack capabilities. After the Navy left in 1958, the airfield became home to the Federal Aviation Administration's premier research center, a New Jersey Air National Guard jet fighter base, a US Coast Guard air station, and Atlantic City International Airport.
